

Committee Annual Report

1. The principal aim of the Association is to establish and maintain a system for the accurate measurement and certification of road race courses in the UK.
2. The Association maintains two websites. The AUKCM website at <http://aukcm.org.uk/> is the administrative website for the Association. It gives general information about the Association and includes notices and minutes of meetings. It also includes a number of historical documents relating to course measurement.
3. The UK Course Measurement website at <http://coursemeasurement.org.uk/> is the main reference source for course measurement in the UK. It provides access for race directors, runners and course measurers to details of measurements, measurers and certificates. It also includes basic information on requirements for measurement, an online theory seminar for training potential measurers and general information about course measurement. The webmaster is Mike Sandford.
4. The online administrative and certification system in England and Wales now sees most requests for renewal certificates coming through the website. There has also been progress in improving the co-ordination with the **run**britain licensing website.
5. No liaison meeting between CMWP members and **run**britain has been arranged this year.
