Committee Annual Report

1. The principal aim of the Association is to establish and maintain a system for the accurate measurement and certification of road race courses in the UK.

2. The Association maintains two websites. The AUKCM website at http://aukcm.org.uk/ is the administrative website for the Association. It gives general information about the Association and includes notices and minutes of meetings. It also incudes a number of historical documents relating to course measurement.

3. The UK Course Measurement website at http://coursemeasurement.org.uk/ is the main reference source for course measurement in the UK. It provides access for race directors, runners and course measurers to details of measurements, measurers and certificates. It also includes basic information on requirements for measurement, an online theory seminar for training potential measurers and general information about course measurement. The webmaster is Mike Sandford.

4. During the year development of the online administrative and certification system has continued and now covers the whole of England and Wales.

5. CMWP members had a liaison meeting with **run**britain on 17 August. The **run**britain notes of the meeting are available on the website.

6. Practical seminars for prospective measurers have been held in Abingdon and Leeds, resulting in the addition of 4 new Grade 2 measurers – 1 in the South and 3 in the North.

7. The CMWP continues to support Wales in the absence of a permanent measurement secretary. Phil Holland is covering this position.

8. The following served on the CMWP during the year:

> Hugh Jones (Chairman)
